STATE
OF
MONTANA

**ATTORNEY GENERAL
MIKE GREELY**

JUSTICE BUILDING, 215 N. SANDERS, HELENA, MONTANA 59620
TELEPHONE (406) 444-2026

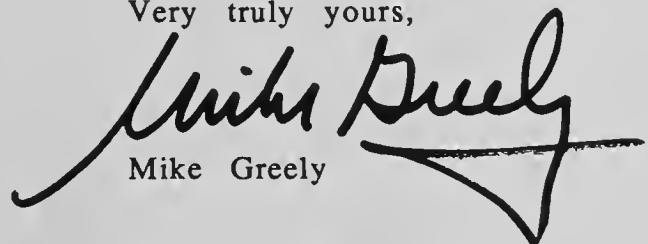

Dear Fellow Montanans,

It is tragic that 234 deaths occurred on Montana's streets and highways in 1987. However, safety belt use and voluntary compliance with Montana's traffic laws have prevented countless additional fatalities.

The number of traffic fatalities in Montana has declined dramatically in the past 10 years. Montana's Highway Patrol and our state's other law enforcement officers deserve great credit for this decline. Their tough enforcement of Montana's drunk driving and other traffic laws has led to a significant reduction in the number of accident fatalities. The new mandatory safety belt law will help reduce fatalities even more .

But Montana's Highway Patrol is not solely responsible for the improved traffic safety on our state's highways. State and local civic organizations have worked closely with law enforcement agencies to promote safe driving habits and safety awareness. With your continued support, I am confident we can continue to reduce traffic fatalities in our state.

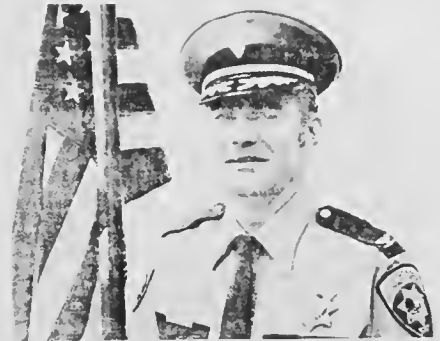

Very truly yours,

Mike Greely

Department of Justice
MONTANA HIGHWAY PATROL

303 ROBERTS, HELENA, MONTANA 59620 (406) 444-3000

Honorable Mike Greely
Attorney General
Justice Building
215 North Sanders
Helena, MT 59620

Dear Sir:

To you and the citizens of Montana, I respectfully submit this 1987 report of accident analysis.

1987 made great demands upon the Montana Highway Patrol. Increases in traffic, drivers, and incidence of drinking drivers increased our fatalities by 5.4%.

The 27% increase in alcohol-related traffic accidents in Montana ended a five year decline, even though the Highway Patrol made more DUI arrests than during 1986 with fewer total officers on our force. The drinking driver is a continuing threat to Montana motorists.

Enforcement of the seat belt law will encourage all motorists to protect themselves from death and injury. The Patrol's attention and dedication to enforcement of the seat belt law along with the motoring public's compliance should help to save lives and injuries, however, the drivers who need seat belt protection the most are the least likely to buckle-up. This is particularly true for drinking drivers.

The Highway Patrol Division will continue to strive to meet the increasing demands placed upon us and will continue to give our best service to the citizens of Montana. Your support for the seat belt law and highway safety is appreciated by every officer of the Montana Highway Patrol.

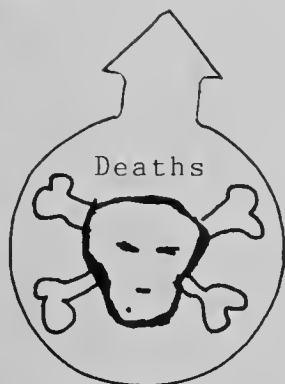

Sincerely,

COLONEL R. W. LANDON
Chief Administrator
Montana Highway Patrol

ALCOHOL AND DEATHS FATAL TRAFFIC ACCIDENTS

ALCOHOL AND DRIVERS FATAL ACCIDENTS

ANALYSIS OF LARGE TRUCK/TRACTOR TRAILER
FATAL ACCIDENTS IN MONTANA IN 1987

Fatal truck accidents during 1987 claimed the lives of three truck drivers, twenty-one drivers or passengers in other vehicles, and four pedestrians. Twenty-one of the twenty-three truck accidents involved two or more vehicles.

Of the twenty-three fatal truck accidents, sixteen involved commercial interstate carriers, three involved logging trucks, and four were trucks of one ton capacity.

Of these twenty-three fatal accidents, six truck drivers were in violation of the law. These included two violations involving the use of alcohol, two violations for speed too fast for conditions, one failure to yield the right-of-way and one failure to signal a turning movement. Thirteen truck accidents were caused by the drivers of automobiles while three were caused by pedestrians who failed to yield the right-of-way to trucks.

Nineteen of the fatal accidents occurred on primary highways of Montana, two occurred on the interstate system and one each on a county road and city street.

Sixteen of the accidents occurred during daylight hours, one at dusk, and six during the hours of darkness.

Since 1985 when Montana first began truck inspections, the number of commercial vehicle accidents has declined from 1,343 in 1985 to 1,202 in 1986 to 973 in 1987. The number of fatal accidents has declined from 35 in 1985 to 33 in 1986 to 23 in 1987. It appears that the truck inspection program is having a favorable effect on reducing accidents along with the increased interest of the truck drivers and also the emphasis that is placed upon safe operations by the various trucking companies.

It appears that this program as a team effort is working, and the indications are that we should take our efforts into the future and cooperate to the utmost for the benefit of the motoring public.
